I am available between 9-12PM PST today.

Me Apr 26, 2025, 1:27 AM

Okay, perfect.

I will ping you for the meeting.

Thank you.

pnwhousehunter Apr 25, 2025, 1:28 AM

I am also available for the next couple hours if you're free. Thank you. I still cannot test the website because when I try to login, it asks me to purchase it in order to try it.

Me Apr 26, 2025, 1:29 AM

Okay, in the meeting, we will solve the issues.

Me Apr 26, 2025, 6:20 PM

Hello Pnwhousehunter,

I hope you and your family are safe and sound!

Sorry for the delayed response. I am available for the meeting tomorrow between 9:00 a.m. and 5:00 p.m. (GMT +6). Please let me know your preferred time.

In the meantime, if you have any other questions or concerns, feel free to let me know.

Best regards,

pnwhousehunter Apr 28, 2025, 12:36 AM

I don't know what GMT + 6 means. I am in PST time, so asking me to figure out a different time, then calculate to your time, and then back to my time is a little complicated. I was available as previously communicated, and then you weren't available as discussed. I'm too busy to have to schedule and reschedule and reschedule call after call for the same conversations.

pnwhousehunter Apr 28, 2025, 12:37 AM

This entire process has been incredibly frustrating. Please just tell me when you're available this week, in PST.

pnwhousehunter Apr 28, 2025, 12:38 AM

After \$3,000 and way too much communicating the same thing over and over and over again, I can't even use the website still, which I find pretty absurd. Please, let's get on a call so we can wrap this project up to a reasonable level and then transfer for it to someone else who can competently take it over.

Me Apr 28, 2025, 12:58 AM

Hello there,

I sincerely apologize for any inconvenience. Kindly note that GMT+6 corresponds to my local time zone. I am available for a meeting between 9:00 PM and 5:00 AM PST.

Please be assured that I am diligently working on your project. Feel free to send me a message anytime during those hours, and I will respond promptly.

I look forward to hearing from you.

Best regards,

pnwhousehunter Apr 29, 2025, 11:27 AM

How is Wednesday at 10:00pm PST for you?

Me Apr 29, 2025, 11:30 AM

Perfect, just ping me a message when you are ready at the mentioned time, I will send you the meeting link.

Hello there,  
  
I hope you and your family are safe and sound!  
  
As per your order requirement and message request, I've made significant progress on your project. We've designed the property creation structure according to the approved Figma file, which you confirmed; developed the core functionality; and am now working on optimizing the backend to support the necessary data calculations, especially for generating the expected graph data.  
  
While Figma includes many input fields for property creation, not all of them are essential for achieving the desired results. To ensure accuracy in the calculations and data output, it's important that we gather and process the right inputs. Many of our past meetings were mostly with the designer and frontend developer, which may have led to some misalignments in understanding

the full logic.

We understand that you've had a busy schedule, but to make sure everything aligns with your expectations, we kindly request a short meeting with you to go over the logic in detail as we agreed on at our last meeting. This will help us refine the property input section and deliver a product that truly meets your needs.

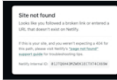

As you know, building quality software comes from a clear understanding of logic, thoughtful planning, and implementing user feedback. Your input at this stage is crucial, and we would truly appreciate your guidance. Please let me know a time that works for you—I'm available between 9 AM to 5 PM (GMT +6).

Additionally, we have integrated St-rip-e in test mode. You can now test the p-a-y-m-e-n-t flow using test card information such as "4242 4242 4242 4242" along with any dummy data. Please take a moment to test the site and let us know your thoughts on the current progress.

Best regards

I don't want to have to keep bringing up the same things over and over and over again, and it's incredibly unreasonable to have to ask you to fix simple things through dozens or hundreds of screenshots and messages. I don't have time for all of this and would rather hire someone who doesn't need constant input. We're trying to develop a significant site and I just can't keep bringing up these obvious small things over and over and over and over and over again.
